PROFESSIONAL SUMMARY

I am a dedicated Web Developer with a strong background in **WordPress, front-end development, and UI/UX design**, along with a working knowledge of **PHP and Laravel**. I excel at solving problems using AI, online communities, and research. I've worked in both **freelance and corporate environments**, combining creativity and technical skills to build responsive, performant, and SEO-optimized websites.

WORK EXPERIENCE

Web Developer | Sukan (Netherlands) | Nov 2023 – Present

- Developed and maintained **e-commerce, service-based, and product-based websites**.
- Implemented **custom functionalities, booking systems**, and WooCommerce stores.
- Optimized performance using **caching, CDN, and SSL**.
- Resolved PHP and WordPress issues to enhance site functionality.
- Collaborated with international clients and teams remotely.
- Improved mobile responsiveness, UI/UX, and accessibility standards.
- Integrated third-party APIs (payment gateways, CRM tools, etc.).

Freelance Web Developer | 2021 – 2023

- Designed and launched **e-commerce and business websites** using WordPress, WooCommerce, and custom code.
- Built a tailored saree e-commerce platform with SEO and custom branding.
- Implemented structured data, keyword targeting, and technical SEO.
- Provided long-term client support and maintenance.
- Helped small businesses transition from offline to online operations.

Notable Projects:
Sukan | MAXGood | AJ Skin Clinic | AJ Skincare | AJ Nutricare | Enkinext | Fruit Frenzy | SK Adviesgroep | Flowvox
